SELECTIONS

Capture the light.

For work. For play. For show.

Brighten your computer experience.

Introducing the FireFly Borealis keyboard — the all new ultra-sleek illuminated keyboard that is light years ahead of other computer keyboards. Its soothing aqua glow lets you see better in all lighting conditions. Soon, you'll be buzzing about its 18 multifunction hotkeys. Softer key strokes offer comfortable, quiet operation. Convenient volume control dial. Advanced long-lasting lighting source. Soon everyone will be aqua with envy. Ultra-slim design measures 16.4" x 7.2" x .91" and weighs only 1.3 lbs.

FF1123A Borealis Keyboard **\$64.95**
