NOVEMBER 15, 2005 -- Signware fixtures

signware fixtures for extending CeeLite's light-emitting capacitor (LEC) technology into retail marketplace applications.

Rose Displays' current product line includes a comprehensive array of reusable frames, holders, floor, and countertop displays, stands, dimensional displays, and accessories.

Lansdale, Pa.-based CeeLite's LEC technology makes it possible to apply lighting in nontraditional environments: indoors or outdoors, on floors and walls, around columns and pillars, and on unconventional objects and surfaces.

For more information contact Rose Displays at (978) 887-9959 or visit www.rosedisplays.com, and CeeLite at (215) 412-7030, ext. 232 or www.ceelite.com.
