

Flexible Light Panels

CeeLite (Lansdale, PA) is introducing a flat, flexible light panel for illuminating signage, trade-show graphics, POP displays and backlit applications.

The reportedly paper-thin lighting panels, which employ light-emitting capacitor technology, feature embedded dimming, fading and flashing options. They're available in sizes up to 3 × 6 ft.

Glass-Decoration Film

ASLAN, Schwarz GmbH & Co. KG (Overath, Germany) is releasing its ASLAN EC 55 colored, translucent film designed for glass decoration. The product features metal-fleck pigments, reportedly resulting in a glass-etch effect. Available in 20 colors, the film also can be used for decorating lightboxes. The product can be digitally printed and offers an outdoor durability of roughly five years.

UV Flatbed Digital Printers

Inca Digital Printers (Cambridge, England) is unveiling its Spyder 320-e and Spyder 320+ UV flatbed digital printers. The Spyder 320-e printer offers a 3.2 × 1.6m bed and a small footprint. The six-color Spyder 320+ printer is intended for closer viewing output and can print white ink before or after printing the CMYK set.
